Rx SYSTEMS INC

CUSTOMER SERVICE is our business!

Product Catalog

Rx Systems manufactures a wide range of products for the LTC market.

Rx Systems, Inc. is a Family owned, full-service provider of pharmacy packaging and supplies. Since 1979, Rx Systems has helped pharmacies develop products and strategies to serve their patients better, and more efficiently. We do this by designing, manufacturing, and distributing items specifically for the pharmacy field. Rx Systems offers labels, forms, bags, vials, counter supplies, and packaging supplies for all types of pharmacy markets, including:

- Retail
- Institutional (Geriatric, Correctional)
- Hospital
- Mail Order

Our company has prospered through reinvestment in manufacturing and distribution. In 1979, Richard Jensen founded Rx Systems, Inc. with the intent of creating a one-stop shop for pharmacy supplies. Beginning with 2000 sq. ft. of distribution space, our company now occupies over 200,000 sq. ft. of manufacturing and warehousing space, including sites in Hanover, PA, Richardson, TX, Gilbert, AZ, Central, FL and our main facility in St. Charles, MO.

The success of our company began with a simple slogan that still holds true today,

"Customer service is our business!"

Standard Heat Seal Cards: Rx Systems manufactures a wide range of Pill Card formats

Custom Pill Cards
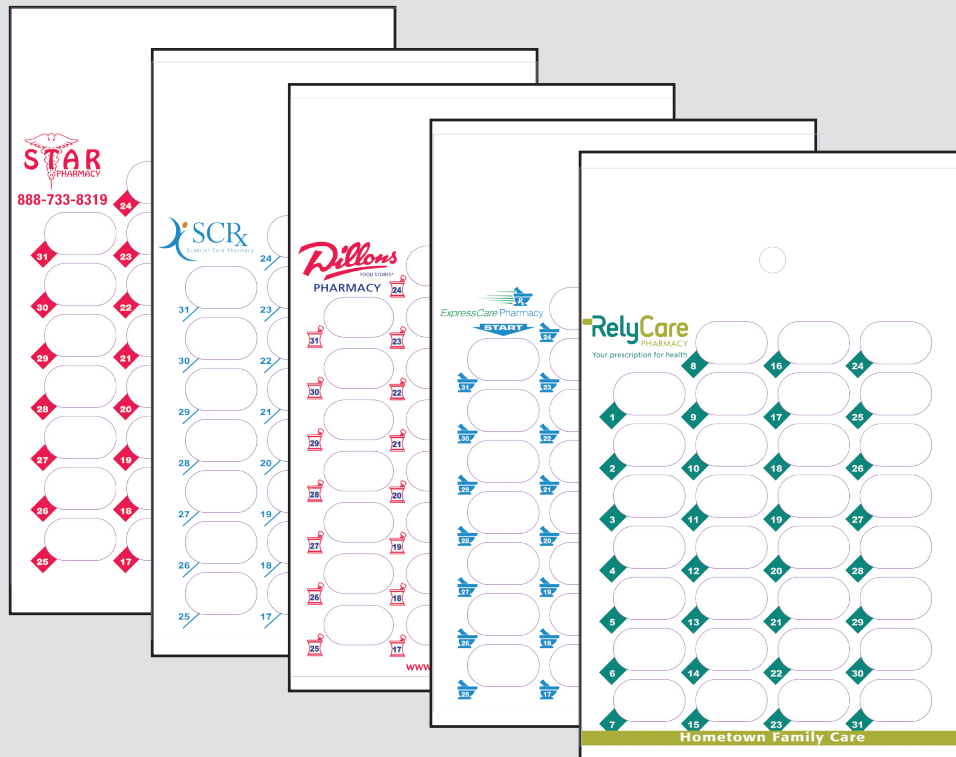

CUSTOM *Pill Cards*

All Rx Systems pill card formats may be customized with your logo, slogan and color scheme to assist with branding, and to create specific reorder timeframes. Ask about minimums.

M-SERIES *Pill Cards have a side fold, 6" x 9" design. The comprehensive line includes 14ct. thru 90ct. formats. Max. label height is 2 3/8". They are compatible with some alternate pill card provider's formats, which allow for an easy transition to Rx Systems, and lets pharmacies use their existing paddles or sponge trays in most cases. For added convenience most formats are available in a 1-piece design (with blister pre-attached) for a nominal fee. Custom logo cards are available in all formats.*

30ct M-Series   Item #M300

Coordinating Blisters

Heat Seal Equipment

Rx Systems offers heat presses that provide a low cost way to get into heating sealing pill cards.

Standard Features & Specs

AutoSealer

Overall Dims: 17" x 16.5" x 14"
Weight: 93 lbs.
Electrical: 110 volt, 12 amp, 1000 watts
- Controlled temperature, time and pressure for worry-free seal.
- Safe two hand operation.
- Emergency Shutoff
- Air cooled outer shell limits access to heat plate for safety.
- Adjustable Sealing Time
- Unique paddles reduce moisture during seal.

AutoOpen

Overall Dims: W 15-3/4" x H 27" x D 23"
                 (11" x 15" Heat Surface)
Weight: 40 lbs.
Electrical: 120 VAC, 15 amps

- Sealer automatically opens to prevent overheating the pill card.
- Seal time and temperature are digitally controlled.
- No tools are needed with the one-touch pressure adjustment.
- All steel construction ensures years of service.
- Install almost anywhere since it will fit on most any countertop.

MAXX™ Press

- Auto reset timer and LED readout
- Temperature range from 200-400 degrees
- All steel construction
- No tools required for adjustments
- 2 up: 11" x 15" heat surface
- 4 up: 16" x 20" heat surface

Accessories

- Sealing Paddles
- Sealing Trays

Warranty

One Year Manufacturer's Warranty

AutoSealer
#1002

The 3 second seal time and high capacity motor make the AutoSealer the best performing sealer available to LTC pharmacies. No air compressors are required. Simply plug into a standard 110 outlet. The operator presses both buttons to start the sealing process, and the center red button can be activated in emergency situations.

Never burn another pill card again! Pull the handle down and walk away. The AutoOpen sealer will automatically lift the heat plate completely off of the cards after they are sealed.
Get a consistent seal every time with the digitally controlled seal time and temperature.

AutoOpen
#1007A

MAXX™ Press
#1006A

The MAXX™ Press manual heat press comes in either a 2 card or 4 card size. They provide a low cost way to get into heat sealing pill cards.

18

Rx Systems has three levels of Prepack Automation that will Fill & Seal between 200 - 500 cards per hour!

**YouTube** | Rx Systems Auto Trans Conveyor

19

2014-04

Rx Systems offers equipment for fast and efficient retrieval of unused medication from blister packs.

The specially designed plates apply localized pressure to the blister, so the pressure inside the blister punctures the foil and leaves the medication safe from damage.

The increased speed from using the Rx Systems Deblisterer will save labor costs fast enough to pay for itself!

The Deblisterer is compatible with M-Series and Uni-Series pill cards.

Average ROI = 80 man hours

DEBLISTERER

Deblisterer

Benefits

- The Deblisterer is equipped with a carry handle and locks closed, so it is portable for on-site use.

- The anodized aluminum frame construction makes it light, strong and easy to clean.

- The plastic catch tray facilitates quick clean up of deblistered pills.

Features

- 30 ct. plate with (2) attachable plugs to accomodate 31 & 32 ct. blisters. Plugs can easily be stored on the side of the machine frame.

- 60 ct. and 90 ct. plates also available.

Specifications

Overall Dimensions:
W 14-1/4" x D 24" x H 24"

Recommended Space:
6" height closed
23-1/8" deep
14-1/4" w/catch tray

Warranty

One Year Warranty

"Everyone in the pharmacy dreaded disposing of returned medications. Pushing pill after pill out of the pill cards is the last thing anyone wanted to do. Since we have utilized the Rx Systems Deblisterer, we have seen a dramatic drop in the time spent deblistering medication, and it is now one of the preferred tasks in the pharmacy. It is extremely effective, durable and Rx Systems always stands behind their products. It is worth every penny! I recommend it to anyone who spends more than two hours a week disposing pill card medications."

LTC Pharmacist
Seattle, WA

Foil Printing System

UD Foil Printing System

## ZEBRA ZT-420
(printer with cutter)

Printer and Systems Features

- Zebra ZT420 printer with cutter, 203 dpi

- Labeling software with capabilities to build your up-to-date database and report generator

- Technical and software support for set-up and maintenance

The pharmacy would need a computer to store and operate the software, a separate printer for reports, and a dedicated employee to set-up and maintain the system.

Rx Systems Unit Dose Foil Printing System

The software is easy to use and is designed to grow with your expanding needs!
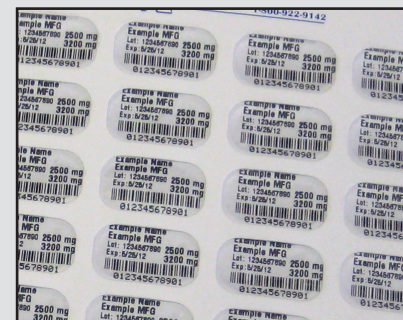

The Rx Systems Unit Dose Foil printing system allows a Long Term Care Pharmacy the ability to print foil sheets that contain all of the necessary requirements with scannable bar codes. Our print system has field proven reliability with advancements in print speed, print quality, and connectivity options.

The software is easy to use and is designed to grow with your expanding needs. Once the lot number and expiration date are entered, the NDC from the pill bottle can be scanned and will populate into the system for printing. The printers' sensor will cut the printed foil sheets which will then be ready for use with blisters only or with blisters and pill cards for recovering unused meds.

Storage

Rx Systems offers a wide range of options for pre-packaging, transporting pill cards, and Home Care Compliance

Boxes, Pulltights, Locator & Divider Cards
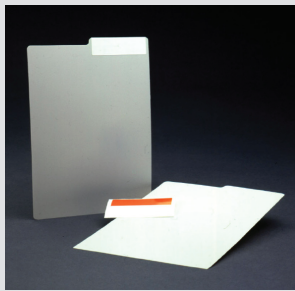

Divider Cards   #3003   200/ctn
Labels   #3007   500/rl

Made of durable plastic. The labels can be placed for either a left or right side tab for easy organization of patient's pill cards. For use in Home Care Boxes and Medical Carts.
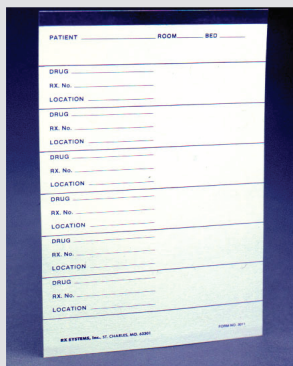

Locator Card   #3011   200/ctn

The Locator Card placed with patient's pill cards acts as a reminder to pass medications stored in other areas (i.e. refrigerated items, topicals and injectables).
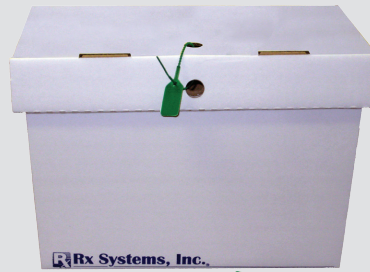

Pre-Pack Reorder Cards   #3012

The Pre-Pack Reorder Card keeps a record of each product inventory, assists in reorder timeframes, and documents plates for prepack machines.

Home Care Boxes   #0962   5/ctn

Used with Divider Cards and Time Pass Labels makes medication compliance simple at home.
Storage Boxes
#0965   LG   60-80   10/ctn
#0966   SM   20-30   10/ctn

Great for transporting filled pill cards. Storage boxes are designed to accept a tamper evident pulltight (pad locks do not fit storage boxes). Tapered to stack inside each other, saving space in the pharmacy.

Pulltights available in various colors.

Pre-Pack Box   #0964   50/ctn

Designed specifically to fit on standard commercial metal shelves. In addition, the cart sub-divider may be used with the pre-pack box to keep cards from falling to the bottom of the carton.

Dims: W 6.5" x D 18.5" x H 4.75"

Med Box   #0960   1000/cs

Convenient storage box for the Unit Dose and StripPak systems. Makes for easy dispensing of patient medications. Fits 3" Unit Dose drawers.

Dims: W 5" x D 1-5/8" x H 2-1/2"

27

Rx Systems offers 9 bag sizes, including 3 flat bottom designs that work well for E-Kit or Control Drug deliveries. Our art department can help layout your custom bag design, or choose from our available stock bags listed on our website. E-mail sales@rxsystems.com for a full price list.

Available Sizes

6# = 6 x 3.625 x 11   12# = 7 x 4.5 x 13.75   20# = 8.25 x 5.25 x 16

Most LTC pharmacies use vials to varying degrees and they are generally an afterthought to their pill cards. Rx Systems offers three types of closures – Traditional, Reversible, Bottle Style - that save the average customer 20-40% vs. other US Made vials. Let us know which closure system you prefer and we can send samples. Amber, blue and green vials are available, as are custom logo caps to help build your brand.
