Vials & Ovals

Choose from three different vial closure types - Reversible, Threaded Bottle or Traditional. All three vial lines are available in Amber, Blue and Green. Complimentary products, such as, liquid ovals, ointment jars, plus syringes and adaptors are available.

E-mail sales@rxsystems.com for a full price list.

STRATA® vials offer flexibility and are an excellent value compared to other U.S. made reversible vials. The STRATA® line only has 8 SKUs (6 vials and 2 caps) to help reduce your inventory and increase storage space. Vial sizes include 11, 13, 16, 30, 40 & 60 Dram. Three vial colors are available, and custom caps are our specialty. STRATA® is certified by Script Pro.

P-Series vials are popular due to their threaded closure. The P-Series line offers the widest variety of sizes (8-60 Dram) and are conveniently packaged with the child resistant (CR) cap attached. Economical non-safe caps can be ordered separately. Three vial colors are available.

PhLEX Caps are dual purpose and fit the P-Series vials – 13 thru 60 dr. Caps & Vials are packaged separately. PhLEX caps can convert from Child Resistant to Non-safe by pressing the center of the cap when not attached to the vial. PhLEX caps reduce inventory and are user-friendly.

OMEGA® vials were designed by taking the best features from other U.S. made vials incorporating them into this final design. The OMEGA® line only has 10 SKUs compared to 15 for comparable lines to help reduce your inventory and increase storage space. Three vial colors are available, and custom caps are our specialty.

OMEGA® is certified by Script Pro.

Only 2 sizes of CR and Non-Safe Caps Amber, Blue & Green Vials Available

VIAL CAP LABELS

Vial Cap labels fit most 13 & 16 dram vial caps.

LOCKS CARPET MATS SAFELY IN PLACE ON CARPETED SURFACES. USES: ANY VINYL BACKED MAT THAT RESTS ON CARPETING • Easy to use - just peel off protective film to expose pressure-sensitive adhesive and apply to underside of mat • Inexpensive • No additional adhesive is required • Made of 1" wide nylon tape with hundreds of rigid hooks on one side and pressure-sensitive adhesive on the other.

NOTE: SOME MOVEMENT MAY OCCUR ON CUT-PILE OR PLUSH-PILE SURFACES.
